

ReadyForAPet: Release notes

Release 1.0

Description

Are you planning on getting a pet but you're not sure if you'll be able to handle it properly? Then this is the app for you. With Ready for a pet? you or your kids will experience all the fun but also all the work with raising a pet by fostering your own virtual pet.

You can make your pet feel well, or at least survive, by feeding it, play with it and take long walks with it. This is a fun and learning application that you need to try out. Download it now and you won't get disappointed!

New features

- Create your own pet, in this release you can create a dog to take care of.
- Make your dog happy by feeding, walking and playing with it.

Known bugs

- You can save your dog's name but not its mood when you quit the game

Upcoming features

- When walking with your dog, the app is connected with the android mobile's GPS so that you have to walk a real distance outdoors.
- When playing with your dog you have to play a game.

Version 1.0
